Profile

An animatics editor with 8 years experience. Enjoys problem solving in the pursuit of creative expression and telling the best story possible. My objective is to bring your vision to life!

Skills

- Can take your/client notes and ideas and run with them in order to tell the best story possible, while adhering to the style and vision of your show/studio
- I can improvise new shots for on-the-spot fixes that can save time and money by eliminating the need to send back for revisions.
- Can utilise storytelling skills learned from making personal films to help tell engaging and memorable stories.
- Passionate about character led stories. My extensive animation experience helps inform performance and timing.
- A solid understanding of compositional aesthetics. Has a discerning eye for detail. Is calm and focused with organising multiple episodes simultaneously, while under extreme pressure.
- Is communicative and inclusive when collaborating within a team while maintaining focus and motivation when working independently.
